NAADAC members have responded positively to the association's partnership with 3DGrid Healthcare Solutions, a joint effort to help addiction professionals make sense of HIPAA regulations.

Because of its success, 3DGrid has expanded the program. New online workshops are now scheduled at the following dates and times (all times are Pacific Daylight Time):

- Tuesday, August 2nd at 10 am (Pacific), 1 pm (Eastern)
- Thursday, August 4th at 12 noon (Pacific), 3 pm (Eastern)
- Wednesday, August 10th at 10 am (Pacific), 1 pm (Eastern)
- Friday August 12th at 12 noon (Pacific), 3 pm (Eastern)
- *More dates to be scheduled.*

To register, or for additional information, contact 3DGrid at 866-334-7431, by email to info@3dgrid.com

or online at

www.3dgrid.com

. Look for the button that says "NAADAC click here" on the 3DGrid website.

3DGrid's online seminar, The HIPAA Survival Course, is a one-hour interactive session that includes a brief overview of HIPAA security rules; the best ways to protect one's practice in the event of an audit; critical issues in the compliance process and a five minute demo of 3DGrid's *HIPAA Checkup* program.

HIPAA is the Health Insurance Portability and Accountability Act, legislation passed in

1996 establishing national standards that protect clients' privacy and personal health information. New HIPAA Security rules went into effect on April 21st, 2005. To help ensure your agency is following HIPAA privacy and security protocols, 3DGrid Healthcare Solutions in partnership with NAADAC, is available to make the process easy and affordable.

As a further commitment to NAADAC, 3DGrid has agreed to lower the member price on its acclaimed *HIPAA Checkup* software suite to \$295. *HIPAA Checkup* is a step-by-step solution that can help the practices become HIPAA audit-ready in less than 5 hours.

HIPAA Checkup

includes a complete set of the 42 policies and procedures, an easy-to-use risk analysis tool and an automatically generated ready-to-go paper trail for absolute audit protection. 3DGrid also includes a \$10,000 compliance guarantee for those who use

HIPAA Checkup

correctly and still get fined. Unlimited access is available to on-staff HIPAA experts ready to answer questions for the first 90 days after purchase. The products also include free upgrades for 1 year.

Typical comments from participants in the recent on-line seminars include:

"You gave me a much greater understanding of HIPAA and what can be done in our practice to get us on our way to compliance. GREAT JOB!"

"This was a great class! After working at a major hospital for over 7 years, this explained and gave more specific and useful information than all my previous HIPAA/confidentiality training."

"The approach presented was excellent. While it was packed with info it was very useful for small practice owners."
