The NAADAC Political Action Committee was founded over two decades ago and is the oldest, most established PAC dedicated exclusively to advancing addiction treatment, prevention and research. NAADAC's PAC supports members of Congress who either have a proven record of commitment on our issues and are in a position to effect positive change. The PAC is unique advocacy tools that enables NAADAC to build relationships with members of Congress who can champion our issues and ensure that candidates who support addiction professionals are re-elected.

NAADAC PAC

NAADAC PAC is funded exclusively by donations from NAADAC members - it has no other income source.
