

Ricki Townsend's passion is working with the Family towards a Family Intervention. She brings her compassion to the family from several different paths. Through her first responder work in law enforcement and her grief recovery work, she best supports a family in the loss and pain that addiction brings.

Townsend is in her 29th year of Recovery. She is also in her 26th year in Ala-non recovery.

I believe the Family is the foundation for us in the throws of addiction. When they start the healing process, many times so does the loved one in addiction.
