

Trainer's Academy

A cost-effective new way to train all your counselors on-site, with top-level educators!

How the Academy can help you:

- **Retain and recruit top-quality talent.** By offering your counselors a convenient yet top-level in-house training programs, you help them maintain their licensure and certification requirements
- **Keep costs low.** By letting us bring the experts to you, you avoid the expense of sending staff to multiple conferences and training programs.
- **Prevent burn-out and keep morale high.** Your employees will appreciate the time and energy you are saving them by bringing the training to their homes, keeping certifications and licensure current.
- **Turn the latest research into practice.** NAADAC experts bring the most up-to-the-minute knowledge to your facility. Academy trainings are a great way to help your clinicians learn the best ways to translate research into practice.

You can choose from a variety of training need topics including:

1. Co-occurring conditions and diseases (including HIV)
2. Prevention and assessment at the primary care level
3. Pharmacological interventions
4. Cultural competency
5. Geriatric populations
6. Gambling and Internet addiction
7. Adolescent and childhood populations
8. Any other training needs
