GUIDELINES & INSTRUCTIONS FOR NAADAC APPROVED EDUCATION PROVIDERS OF CONTINUING EDUCATION

NAADAC Approved Education Providers offer training and education for those who are seeking to become certified/licensed, for those who want to maintain their certification/license at the state or national level, for those who want to add to their education, and for those from other disciplines who want to learn more about substance use and co-occurring disorders.

Individuals participating in educational programs offered by NAADAC Approved Education Providers are assured that the continuing education (CE) credits provided for each course will be accepted toward national credentialing by the National Certification Commission for Addiction Professionals (NCC AP), as well as many of the individual state licensing/certification bodies in the addiction and other helping professions.

The NAADAC Approved Education Provider logo signifies that an organization has voluntarily opened its educational programs to examination by the National Certification Commission for Addiction Professionals (NCC AP) for content applicability to state, national, and international certification standards. This rigorous review process ensures that learners receive a consistent, reliable, and quality learning experience that is applicable to their careers and advances their understanding of addiction and co-occurring disorders-related issues.

Levels and Costs:

The NAADAC Approved Education Provider Program offers four (4) flexible options to colleges, universities, organizations and individual trainers who wish to apply for Providership status.

Option 1: Approval of unlimited training for a period of two (2) years (3 Tier Levels)

- **Tier A Provider:** This option applies to organizations or individuals who plan to offer 1 – 3 different trainings throughout the two-year approval period. Trainings in this category are defined as workshops, conferences, courses, webinars, or independent study programs. The 1 – 3 trainings in Tier A can be provided an unlimited number of times during the two (2) year period. **The fee for this level of approval is \$400 for two (2) years.** All fees are non-refundable processing fees.

- **Tier B Provider:** This option applies to organizations or individuals who plan to offer 4 – 6 different trainings throughout the two-year approval period. Trainings in this category are defined as workshops, conferences, courses, webinars, or independent study programs. The 4 – 6 trainings in Tier B can be provided an unlimited number of times during the two (2) year period. **The fee for this level of approval is \$600 for two (2) years.** All fees are non-refundable processing fees.
- **Tier C Provider:** This option applies to organizations or individuals who plan to offer 6+ different trainings throughout the two-year approval period. Trainings in this category are defined as workshops, conferences, courses, webinars, or independent study programs. The 6+ trainings in Tier C can be provided an unlimited number of times during the two (2) year period. **The fee for this level of approval is \$800 for two (2) years.** All fees are non-refundable processing fees.

During the two-year approval period, new courses that were not originally listed during initial approval or at the time of renewal may be submitted for approval for **\$50 for per course**. If adding a course causes a Provider to move from the amount of courses specified in Tier A to Tier B or C or from Tier B to Tier C, it will be responsible for paying the difference in cost between the original Tier and the Tier to which the Provider is upgrading. All fees are non-refundable processing fees. *Providers may upgrade from Tier A to Tier B or C or from Tier B to Tier C at any time during the two-year period. The upgrade cost will be the difference in cost between the original Tier and the Tier to which the Provider is upgrading.*

Option 2: Approval for a single training event

This option applies to organizations or individuals who are experienced training providers and are offering only one (or are requesting approval for only one) training event (for example, an organization’s annual conference). An independent study course is not considered a single training event. A workshop series or training series is not considered a single training event. The approval status is valid only for the approved event and may only be used for issuing or reissuing certificates for the event. If a workshop or training is repeated on subsequent dates, additional approval is required. **The fee for this type of approval is based on the number of CEs offered at the event. The fee is \$200 for events offering 8 CEs or less. The fee is \$300 for events offering 9-14 CEs. The fee is \$400 for events offering 15 CEs or more.** All fees are non-refundable processing fees.

Option 3: Approval for a Distance Learning Organization (eLearning, Learning Management System, Live/OnDemand Webinar Series, etc.) for a period of two (2) years

This option applies to organizations primarily offering distance learning, eLearning, or online courses via a Learning Management System. Upon initial approval and at the time of renewal, these organizations may submit an unlimited number of distance learning courses for approval. **Only courses that are submitted for approval and approved may be considered approved courses.** During the two-year approval period, any new courses that were not originally listed during initial approval or at the time of renewal may be submitted for approval for a fee of **\$50 processing fee per course**. The unlimited number of distance learning courses includes live or archived webinars, distance learning self-paced courses, interactive learning videos, and interactive eReader courses; this will function as the organization’s primary portfolio of educational offerings. **The fee for this level of approval is \$1,000 for two (2) years.** Unlimited approval for distance learning organizations does not include live in-person

conferences/events. Distance learning organizations may apply for approval pursuant to Option 2 for live in-person conferences/events. All fees are non-refundable processing fees.

Option 4: Approval for an academic institution for a period of two (2) years

This option applies to regionally or nationally accredited colleges or universities that offer nine or more credits (semester or quarter hours) of addiction-related courses within an undergraduate and/or graduate, and/or doctorate degree program. **The fee for this level of approval is \$800 for two (2) years, \$400 of which is a non-refundable processing fee. Academic institutions must use the NAADAC Approved Academic Institution Education Provider Application & Renewal Application.**

Processing Time, Renewal & Associated Fees:

All NAADAC Approved Education Provider Applications must be submitted to NAADAC for review at least **eight (8) weeks prior** to the start date of the event, training or first course. **Expedited processing is available for applications submitted less than eight (8) weeks prior to the start date of the event, training or first course for an additional non-refundable fee of \$200.** A minimum of two (2) weeks is required for expedited review. A late fee of \$200 will be assessed if the renewal application is not submitted at least eight (8) weeks prior to the expiration of an unlimited providership period. **It is solely the NAADAC Approved Education Provider's responsibility to submit a complete renewal application in a timely manner, and NAADAC is not responsible for any lapse in approval status due to the provider's failure to properly apply for renewal.**

ARTICLE I. DEFINITIONS

- A. **Approved Education Provider:** An individual, corporation, association, organized health care system, educational institution, governmental agency or private practitioner offering continuing education as approved by NAADAC.
- B. **Continuing Education (CE):** A learning experience that can come in a variety of forms including, but not limited to, lectures, conferences, academic studies, in-service education, institutes, seminars, workshops, extension studies, independent/home study programs, and on- line courses taken by professionals for certification, recertification, and licensing/credentialing purposes.

- C. **Course:** A systematic learning experience, at least one (1) hour in length, which is designed for the acquisition of knowledge, skills and information for application in direct and indirect patient care.
- D. **The Eight Counselor Skill Groups:** The basic knowledge and functions of an addiction counselor ascribed to by NAADAC and NCC AP.

The Eight Counselor Skill Groups are:

- 1) **Clinical Intake and Screening:** A clinical intake and screening brings together bio-psycho-social-spiritual information and substance use disorder assessment screening tools to identify indications of substance use disorders and determine appropriate referrals and treatments. The primary purpose of a clinical assessment is to develop a full picture of the client's substance use patterns and determine treatment needs. It is critical that the client is engaged in the intake and screening process. Together, the client and counselor determine the behavioral changes the client is ready and willing to make after reviewing the assessment outcomes and counselor recommendations for referral and treatment options.
- 2) **Clinical Assessment:** The goal of the clinical assessment and evaluation is to gather information and diagnose or develop a diagnostic impression that can address substance use and co-occurring disorders and other recovery issues. The clinical assessment also identifies the client's strengths, weaknesses, supports and readiness for change as well as determines an appropriate level of treatment or care. A clinical assessment involves a combination of the clinical interview, personal history, bio-psycho-social-spiritual assessment, drug and alcohol testing, and other assessment tools that may be helpful in the process.
- 3) **Treatment Plan:** The treatment plan is a document that identifies the treatment and services based on the client's specific needs as determined by the intake, screening and assessment process. Each client must have an individualized treatment plan based on an inventory of his or her strengths and challenges. Together, the client and counselor determine the behavioral changes the client is ready and willing to make through this process.
- 4) **Counseling Services:** The interactive process of providing assistance to a client to help him or her change and maintain attitudes, beliefs and behaviors that are more constructive in his or her recovery process. The counselor must determine the most appropriate type of assistance and the counseling interventions to facilitate the change in behaviors, attitudes and beliefs. Counseling services include individual, group, family, and crisis intervention counseling, and psycho-education.
- 5) **Documentation:** Documentation and record-keeping are critical tasks for the addictions/co-occurring counselor. Frequent and detailed focus on the client file and the documentation within the client file are essential to evidence the services the client is receiving. Documentation and record keeping must begin with the first point of contact with the client, whether it be face to face, phone or electronic communication. Documentation continues throughout the course of intake, screening, assessment, and evaluation, treatment planning, treatment services, referral, case management, discharge, and continuing care planning. The client records must document every type of service received, as well as the client's progress or lack thereof.

- 6) **Case Management:** Case management focuses on the whole individual and emphasizes comprehensive assessment, service planning and service coordination to address multiple aspects of the client's recovery process. Comprehensive substance use and co- occurring treatment often requires clients to move to different levels of care or different systems of care pursuant to the case management plan.
 - 7) **Discharge and Continuing Care:** Discharge and continuing care planning is the process of planning treatment and/or other support activities designed to maintain the gains achieved in the treatment and recovery process. Discharge planning and continuing care occur as the treatment relationship enters the final stage with the client. A continuing care plan is a documented plan of action developed before discharge or transfer to another level of care.
 - 8) **Legal, Ethical and Professional Development:** This skill group includes understanding national or state regulations governing the counselor/client relationship, and adherence to the NAADAC/NCC AP Code of Ethics for substance use and co-occurring disorder counselors and peer recovery support specialists. These disciplines are expected to follow their specific scope of practice and professional development for continued education and development. The dynamic nature of professional development demands continual self-awareness, self-evaluation, and monitoring of professional development.
- E. **Evaluation:** A paper or electronic questionnaire which requires a written and/or selected response/answer to a series of questions in order to evaluate the instruction of a given course, including by asking about subject areas including but not limited to (1) the extent to which the course met the learning objectives; (2) the adequacy of the instructor's mastery of the subject; (3) the utilization of appropriate teaching methods; (4) efficiency of the course mechanics, e.g., room, space, lighting, acoustics, audio/visuals, handouts, etc.; (5) the applicability or usability of the new information; and (6) general/other comments.
- F. **Independent/home study/on-demand course:** A course that can be completed on an individual basis and carried out remotely.
- G. **Online course:** A course offered through a web browser or mobile device.
- H. **Successful completion:** Participant has met all criteria as specified by the NAADAC Approved Education Provider to earn continuing education course credit.
- I. **Webinar:** Live online course offering. Live webinars can be converted to on-demand online courses.

NAADAC Approved Education Providers against whom complaints have been registered will be audited on a priority basis. Although advance notification may be given, audits may be done without prior notification. In addition, auditors may arrive unannounced to audit live events. Course instructors will be informed of the auditor's presence and the length of time the auditor is in attendance for live events. The NAADAC Approved Education Provider must provide NAADAC with login information to access any information not available to the public in order to review online courses. The NAADAC auditor will receive CE credit from NAADAC for the length of time that he or she audits the course.

ARTICLE VII. COUNTINUING EDUCATION HOURS

NAADAC requires that hours of approved continuing education be measured on one of the following basis:

- A. One (1) hour of education shall be accepted as one (1) continuing education credit (CE).
- B. One (1) contact hour of continuing education is equal to one (1) continuing education credit (CE).
- C. One (1) academic quarter unit is equal to ten (10) continuing education credits (CEs).
- D. One (1) academic semester hour is equal to fifteen (15) continuing education credits (CEs).

ARTICLE VIII. TRAINING REQUIREMENTS FOR NAADAC APPROVED EDUCATION PROVIDERS

- A. The content of all continuing education courses must be relevant to substance use and co-occurring disorder counseling and/or practice, must be related to the scientific knowledge or technical skills required for substance use and co-occurring disorder counseling, and/or must be related to direct and/or indirect patient/client care (i.e., recovery support). In addition, each course must be identified as belonging within one of the Eight Counselor Skill Groups (see Article I).
- B. NAADAC Approved Education Providers are required to demonstrate, by description of the course, the learning objectives and outline of the course content, how the course relates to substance use and co-occurring disorder counseling and/or practice and/or direct and/or indirect patient/client care; i.e., recovery support).

Courses must be in one of the following subject areas:

1. Theoretical content related to scientific knowledge and/or the application of scientific knowledge to practice in the field of addiction and/or co-occurring disorder counseling and/or treatment;

2. Content related to direct and indirect patient/client care, such as group and individual counseling, family dynamics and counseling, mental health diagnoses, co-occurring disorders, HIV/AIDS/HepC, case management, recovery support documentation, ethics; and/or
 3. Content related to administration, management, education, research, working within managed care systems, developing a private practice, or other functional areas of addiction practice relating to indirect patient/client contact. This does not include administrative functions within an organization, such as human resources or billing.
- C. All programing that does not qualify for NAADAC CE credits must be clearly marked. Course titles or designations containing the words **“credential(ing),” “certification,” and/or “accredited”** shall not be approved for NAADAC credit and must be clearly marked as separate from those approved by NAADAC. Course titles and advertisements suggesting a NAADAC Approved Education Provider is offering NAADAC “credentials,” “certification,” or “accreditation” is misleading and may be misconstrued by the participants of the course(s). A course description may include that it offers a “certificate of training” or “certificate of education.”
- D. Examples of content that would NOT be acceptable include (but are not limited to):
1. Programs regarding parenting or otherwise designed for lay people.

- B. Training content must be current and designed to include recent developments in the subject of instruction. The content of all courses must be updated regularly. NAADAC Approved Education Providers have an ongoing responsibility to update course content and materials to reflect the current best practices (for example, all materials should be updated to cite/refer to/analyze/otherwise use DSM V rather than DSM IV or if training is on ethics using the current NAADAC Code of Ethics released in October 2016).
- C. Instructional objectives are to be stated in learning terms. The learning objectives must denote measurable attributes observable in the participant completing the program. The objectives are to explain what proficiency the continuing education program participants should be able to demonstrate. Instructor’s goals are NOT learning objectives. For example: “To introduce the student to the community health system” is a goal of the instructor, not an instructional learning objective. Learning objectives are brief statements that describe what a participant will be expected to learn by

the completion of the course.

An example of a learning objective is: “Upon completion of this education program/course, the participant will be able to:

1. Explain the role of the clinical assessment in the development of a client treatment plan;

- D. Independent study courses must include an exam to evaluate students’ understanding of the course materials and completion of the learning objectives.
- E. All training must be at least one hour (60 minutes) in length if continuing education credit is to be given.
- F. Courses and webinars may be interconnected, requiring a candidate to attend more than one event (live or via webinar) to complete the course/webinar requirement for credit.

ARTICLE X. COURSE REQUIREMENTS

- A. The participant must be enrolled in the course for credit. Courses must measure the participant’s achievement of course objective(s) as outlined in Article XI.

- C. No participant shall be allowed access to the certificate of completion prior to having completed the course content of a webinar or online course.
- D. A system proving participants watched or participated in the webinar or online course content must be in place for all web-based content.
- E. Participant credit for **online courses** will be **limited to eight (8) hours** of credit within a twenty- four (24) hour period of time.

ARTICLE XI. COURSE EVALUATION

- A. All courses require a general course evaluation by the attending participants. A sample course evaluation can be found at naadac.org/providers. The following characteristics should be analyzed:
1. The extent to which the course met the learning objectives;
 2. The adequacy of the instructor's mastery of the subject;
 3. The utilization of appropriate teaching methods;

The NAADAC Approved Education Provider logo is to only be used for NAADAC approved educational offerings. Any use of the logo that can or does result in misleading the public is strictly prohibited and will result in a withdrawal of approval for all provider educational offerings. The NAADAC Approved Education Provider Logo Use Guidelines & Agreement are available at naadac.org/providers; a signed copy of the guidelines & agreement must be submitted to NAADAC before use of the logo is permitted.
- D. The use of the NAADAC, the Association for Addiction Professionals, logo is strictly prohibited and will result in a withdrawal of approval for all provider educational offerings. NAADAC Approved Education Providers are to use the NAADAC Approved Education Provider logo pursuant to the NAADAC Approved Education Provider Logo Use Guidelines & Agreement.
